EDUCATION

University of Moratuwa

Katubedda

B.Sc. Engineering (Hons.) in Electronic & Telecommunication

2022 – 2026

- **GPA: 3.85/4.00 (Dean's List in semesters 1, 2, 4, 6, 7, 8).**
- Coursework: Data structures and Algorithms, Software Design, Advanced Machine Vision, Pattern Recognition, Optimization, Linear Algebra, Applied Statistics, Digital System Design.

Ananda College

Colombo 10

GCE Advanced Level - Physical Science Stream

Jan 2018 – Oct 2020

- Achieved 4 “A” passes in Combined Mathematics, Physics, Chemistry, and General English.
- **Z-Score: 2.8655**
- **Island Rank: 9**
- **District Rank: 3** (Colombo District)

EXPERIENCE

Software Engineer

July 2026 – Present

WSO2

Colombo, Sri Lanka

- **Integration AI team**
 - * Designed and built a publicly released Ballerina evaluation library for AI agents, implementing 23 evaluations spanning rule-based checks (tool trajectory, content coverage, latency) and LLM-as-judge metrics (semantic similarity, groundedness, instruction-following). [GitHub](#)
 - * Delivered a prototype of graph-based knowledge retrieval for enterprise customer-success agents by architecting an Open Knowledge Format (OKF) agent that traverses a concept graph via progressive disclosure. [GitHub](#)
 - * Integrated cloud knowledge bases into the WSO2 Integrator visual editor end-to-end, wiring language-server package rendering, connection filtering, and auto-generated Devant knowledge base forms, plus a scalable marketplace-tagging pipeline on the Choreo data plane. [GitHub](#)

Software Engineering Intern

Dec 2024 – May 2025

WSO2

Colombo, Sri Lanka

- **Agentic AI Analyzer for WSO2 MI Diagnostics** | [GitHub](#) | [GitHub](#) | [Medium](#)
 - * Architected a diagnostic analyzer using **Python** and **LLM agents** to perform root cause analysis of Enterprise products.
 - * Developed a custom parsing library to interpret thread dumps while automating the retrieval and analysis of relevant source code and MI thread group data for context-aware debugging.
- **Ballerina Integration for HubSpot CRM API** | [GitHub](#) | [Medium](#)
 - * Developed a **Ballerina** connector for HubSpot's CRM Companies REST API using the OpenAPI tool, customizing client behavior and managing dependencies.

SKILLS

Specializations: Agentic AI, Computer Vision, Deep Learning, RESTful APIs.

Programming Languages: Python, Java, C++, Ballerina, JavaScript (ES6+), SQL.

Frameworks & Libraries: Spring Boot, FastAPI, React, Flutter, TensorFlow, PyTorch, Scikit-learn, YOLO, OpenCV.

Tools & Platforms: Git, Docker, Linux, Visual Studio Code, AWS, WSO2 Micro Integrator, Choreo.

Languages: Sinhala (Native), English (Professional).

Soft Skills: Problem Solving, Project-based Learning, Leadership, Public Speaking, Communication.

PROJECTS

- Multimodal Wild Animal Detection System** | [GitHub](#) 2025
- Final year project, Collaborating with **Dialog Axiata** to engineer a low-cost, multimodal sensor network for real-time elephant detection. Responsible for the embedded system for geophone signal filtering and YOLOv8/v11 model Quantization Aware Training (QAT).
- AI powered Transformer Tracker (TransTrack)** | [GitHub](#) 2025
- Academic group project, Built a comprehensive monitoring system using Java Spring Boot and React with real-time thermal image analysis of power transformers. Responsible for backend asset handling logic and implementing the frontend for maintenance record visualization and interactive bounding boxes.
- Sub-THz Communication Research** | [GitHub](#) 2025
- Individual Project, developing AI-driven models for joint phase noise and channel estimation in collaboration with Dr. Dileepa Marasinghe at the University of Oulu, Finland.
- Flower Exchange Automation Platform (C++)** | [GitHub](#) 2024
- Two-person project, Created as part of a professional software course by LSEG, to build a virtual marketplace to simulate flower trading. Responsible for the tracking buy/sell orders and the logic of the marketplace. Built features to process CSV files, match trades based on priority, and generate final transaction reports using C++.
- RAKI 1.0 – AI Personal Assistant** | [GitHub](#) 2024
- Team project, Engineered an assistive device for the elderly in ICE Bootcamp by Prof. Suranga Nanayakkara. Responsible for facial emotion recognition to provide interactive care and companionship.
- UniLink – Social Media Platform** | [GitHub](#) 2022
- Team project, Developed a university networking platform, recognized as a Semifinalist in **Idealize 2022**.

CERTIFICATIONS

LSEG: High-performance and mission-critical software development using C++ (2024)
Coursera: Machine Learning Specialization (DeepLearning.AI) (2024)
Coursera: Computer Vision and Image Processing Essentials (IBM) (2024)
WSO2: Micro Integrator Practitioner - V4 (2025)
LinkedIn: Marketing foundations (2019)

AWARDS AND SCHOLARSHIPS

- 1st Runner-up | Spark Challenge** 2024
- Proposed and developed an IoT prototype for poultry monitoring.
- Merit Award | Predicta 1.0** 2024
- Led team 'Learning curves' to rank **6th** in this machine learning model competition.
- Best Community Project Award** 2023
- Meta Innovation Creativity Entrepreneurship (ICE) Boot camp.
- Gavelier of the Year Award** 2023
- Recognized for excellence in leadership and communication skills.
- Spirit of Service Award - Rotaract Club of University of Moratuwa** 2023
- Awarded to the club members who showed the most dedication to club activities.
- Mahapola Higher Education (Merit) Scholarship** 2022
- For outstanding performance in the GCE A/L examination.
- C.W. Leadbeater Challenge Cup** 2020
- Awarded to the most distinctive Anandian in the physical science section.
- Ananda College Prize Giving** 2020
- Won **8 prizes** including Harold Jayathilaka Memorial Award (Physics), Muhandiram Charles Memorial Award (Combined Mathematics) and Ananda Pradeepa Award.

LEADERSHIP & EXTRA-CURRICULARS

Chairperson: IEEE Professional Communication Student Chapter, UoM. March 2025 – Present
Department Representative: Dept. of Electronic and Telecommunication Engineering. Jan 2024 – May 2025
Vice President Membership: Gavel Club of UoM. March 2024 – March 2025
Main Branch, Executive Committee member: Electronic Club. Aug 2023 – Aug 2024
Public Speaking: **Finalist** in Speech Olympiad XVI and **4th place** in Eloquence.
Project Management: Co-chaired five university events including Rotaract Prom Night and Chapter-X.
Other Volunteering: Hosted EXMO live stream, moderated over 15 university events, Company Coordinator for ENTIC Career Fair, Volunteered to teach the university junior batch.
